

# Sagnik Majumder

👤 - 25 years | 📞 (+1)-5129034773 | ✉ [sagnik@cs.utexas.edu](mailto:sagnik@cs.utexas.edu) | 🌐 [Webpage](#) | 🐙 [GitHub](#)

## EDUCATION

---

- MAY 2021    **University of Texas at Austin (UT)-Austin**, Texas, United States  
Master of Science in COMPUTER SCIENCE; GPA: 3.95/4.0
- JULY 2018    **Birla Institute of Technology and Science (BITS)-Pilani**, Pilani, Rajasthan, India  
Bachelor of Engineering (Hons.) in ELECTRONICS AND INSTRUMENTATION  
Thesis: "Neural Architecture Meta-learning via Reinforcement" | Advisor: [Prof. V. RAMESH](#)  
GPA: 9.55/10, Distinction and ranked 2<sup>nd</sup> out of 100 students

## INTERNSHIPS AND RESEARCH

---

- |                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|---------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| JAN 2020 - present  | <b>Research assistant at UT Austin Vision Lab</b><br><i>Advisor - <a href="#">Prof. Kristen Grauman</a></i> <ul style="list-style-type: none"><li>• Introduced the new task of active audio-visual source separation and proposed a novel deep RL based method to solve it</li><li>• Built an RL based hierarchical audio-visual navigation system that combined a novel end-to-end waypoint prediction model and an geometric motion planner, and also leveraged a novel acoustic map design</li></ul>                                         |
| AUG 2019 - DEC 2019 | <b>Student in Graduate Natural Language Processing course at UT Austin</b><br><i>Advisor - <a href="#">Prof. Greg Durrett</a></i> <ul style="list-style-type: none"><li>• Built a novel state-of-the-art adversarial defense for question answering that uses a model-agnostic answer reranking mechanism by computing named entity overlap between questions and candidate answers</li></ul>                                                                                                                                                   |
| JAN 2018 - MAY 2019 | <b>Research assistant at Goethe University</b><br><i>Advisor - <a href="#">Prof. Visvanathan Ramesh</a></i> <ul style="list-style-type: none"><li>• Built a continual learning framework by integrating a variational autoencoder based deep generative replay model and a statistical outlier rejection technique (OpenSet) that outperformed the state-of-the-art</li><li>• Curated a novel concrete defect dataset; meta-learned task specific neural architectures that outperformed strong baselines and transfer-learned models</li></ul> |
| MAY 2017 - May 2019 | <b>Research intern at Frankfurt Institute for Advanced Studies</b><br><i>Advisor - <a href="#">Prof. Christoph Malsburg</a></i> <ul style="list-style-type: none"><li>• Created a distortion invariant handwritten digit recognition system with Gabor filters and an elastic graph matching algorithm</li><li>• Worked on motion parameter estimation and prediction of rigid rotating objects and implemented a neural version of the Kalman filter</li></ul>                                                                                 |

## PEER-REVIEWED PUBLICATIONS AND SUBMISSIONS

|--------------------------------|-----------------------------------------------------|
| Programming Language:          | Python; C; C++; Java; Matlab                        |
| Autodifferentiation Framework: | PyTorch; Tensorflow; Caffe                          |
| Python Package:                | Numpy; Scipy; SK-learn; Matplotlib; Seaborn; Plotly |
| Operating System:              | Linux (Debian, Ubuntu); MS Windows                  |
| Distributed Version Control:   | Git                                                 |
| Document Preparation:          | L <sup>A</sup> T <sub>E</sub> X; MS Word            |

## ACADEMIC HONORS AND ACHIEVEMENTS

---

|                     |                                                                                                 |
|---------------------|-------------------------------------------------------------------------------------------------|
| NOVEMBER 2020       | TOEFL iBT: 118 (READING: 29, LISTENING: 30 SPEAKING: 29, WRITING: 30)                           |
| JULY 2018           | GRE: 334 (QUANTITATIVE: 170, VERBAL: 164, AWA: 5.0)                                             |
| JAN 2016 - JUN 2018 | Received merit scholarship for academic excellence from BITS Pilani for 5 consecutive semesters |
| MARCH 2017          | Secured 2 <sup>nd</sup> place in paper presentation at APOGEE, BITS Pilani technical festival   |
| DECEMBER 2016       | Received DAAD WISE scholarship 2017 for research internship in Germany                          |
| JUNE 2014           | Ranked in top 0.50% in IIT-JEE and 64 in WBJEE                                                  |
| FEBRUARY 2014       | Offered KVPY fellowship by the Department of Science and Technology, Govt. of India             |

## TEACHING EXPERIENCE

---

SEMESTER 1, 2017-18: Teaching assistant for "Neural Networks and Fuzzy Logic" at BITS Pilani

## CO-CURRICULAR ACTIVITIES

---

|          |                                                                                                     |
|----------|-----------------------------------------------------------------------------------------------------|
| 2016-17: | Project coordinator of Instrumentation Forum, BITS Pilani                                           |
| 2014-17: | Member of BITS Firefox Community, Google Developers' Group and Instrumentation Forum at BITS Pilani |

## EXTRA-CURRICULAR ACTIVITIES

---

|          |                                                                                   |
|----------|-----------------------------------------------------------------------------------|
| 2016-17: | Cultural secretary of Moruchhaya, the Bengali cultural association at BITS Pilani |
| 2014-18: | Member of Moruchhaya                                                              |
